

FR08-0088-05.04

No biological stains were noted on the boxer shorts.

FR08-0088-05.05

No biological stains were noted on the socks.

FR08-0088-06.01

Presumptive testing for blood was negative on the blue "Old Navy" cap.

FR08-0088-07.01

Presumptive testing for blood was negative on the "Bass Pro Shop" hoodie.

RESULTS

DNA testing using the polymerase chain reaction (PCR) and the AmpFISTR Identifiler™ Amplification Kit was performed on the indicated exhibit(s). The loci tested and the results obtained for each tested sample are listed in Table 1. Due to an insufficient amount of quantifiable DNA, PCR testing was not performed on the swab of the rear door of the suspect's truck (02). This report supplements Orchid Cellmark's Laboratory Report FR08-0088 dated June 30, 2008.

CONCLUSIONS

FR08-0088-01.01.6

In the absence of an identical twin, the DNA profile obtained from the cutting of the stain from the washcloth is identified as originating from Nicole Payne.

FR08-0088-05.01.5

The partial DNA profile obtained from the swabbing of the stains on the left sleeve of the T-shirt is consistent with the DNA profile obtained for Austin Wages.

FR08-0088-05.02.2

The DNA profile obtained from the swabbing of the front, bottom portion of the "Polo Ralph Lauren" hoodie matches the profile obtained for Austin Wages.

FR08-0088-05.03.2

The DNA profile obtained from the swabbing of the bottom, right leg of the jeans matches the profile obtained for Austin Wages.
